

Chemical Technician

Saskatoon, Saskatchewan

Envirotec Services Incorporated

Since its formation in 1989, Envirotec has been a leader in providing integrated environmental services throughout Saskatchewan. Envirotec is committed to providing a premier service with a focus on safety, quality, and strict regulatory compliance. Envirotec services commercial, industrial and institutional organizations in: hazardous waste disposal and recycling, emergency spill response, property remediation, industrial cleaning vacuum truck services, used oil materials recovery and recycling, and other specialized services.

Position and Scope

Envirotec's Chemical Technician is directly responsible for the classification, packaging and assisting with the transportation of dangerous goods. Technicians travel to customer sites throughout the province of Saskatchewan for hazardous materials related project. Some overnight travel will be required for this position (approximately 1-2 nights per week).

Key Accountabilities of the position include:

1. Identification and classification of hazardous waste, proper packaging and documentation in accordance with Transportation of Dangerous Goods Regulations, and all other pertinent regulations.
2. Assisting customer service reps with planning the collection of the hazardous materials, or transporting these materials directly to Envirotec's Hazardous Waste Facility.
3. Assisting at Envirotec's Hazardous Waste Facility with the handling, and either treatment or bulking of the above mentioned materials.
4. Diligent completion of all associated safety, service and transport documentation as required by Envirotec as well as regulatory bodies governing the Transportation of Dangerous Goods.
